Inventory/Pricing:

Inquire about availability and pricing on all seashell luminaries prior to ordering. Because our products are harvested from the sea, availability is subject to change. Availability of shells varies seasonally. With night light orders we reserve the right to substitute other species that are similar when availability is an issue. We are not responsible for any delays due to strikes, tariffs, wars or acts of God.

Characteristics:

No two shells are identical. We do our best to describe our shells in detail. Some chips and scratches, variations in color, size and shape are part of the shell's natural beauty, and are not considered flaws.

NOTE: All sales are final.

All prices are subject to change without notice.

Eco Friendly:

Conch is a staple seafood in the Caribbean. Most fishermen break the shells in order to easily harvest the conch meat. In this case, friendly fishing methods insure perfect shells which are transformed into luminaries to be enjoyed for generations to come.
